* Imports of Extra - Fine Cotton by Producing Countries .

Source : ICAC .

Note:

1- The Imports and exports don't match because the definitions of ELS and LS cotton for different countries are different . For example , for Egypt the ELS cotton varieties are minimum 33.57 mm and above (amongst other characteristics) but for Pakistan any cotton fiber length exceeding 31mm is ELS.

Chairman
Eng./ Mohamed Khedr
